From the Desk of the President

Scott Levy, D.D.S

Over fourteen years ago my sister moved to San Francisco. I was on a short break from my GPR Program in Park Slope, Brooklyn, and I decided to go visit and see what my sister's new life was like in her city by the bay. She had a small apartment on Oak street in between Golden Gate Park and the Haight – Ashbury district. While she was working, I had time to explore the heavily inclined, quadriceps burning, sidewalks that abound that area. Upon my mini-adventures I came across a small yard sale in front of a bright pink and yellow classically San Franciscan styled house. In the pile of various used wares, I found a rolled poster that was selling for five dollars. I unrolled it and it read:

*"The mouth in its entirety
Is a wonderful and important part
of our anatomy, life and emotion.
It is the site of our very being.
when an animal loses it's teeth, it
dies; it cannot survive unless
domesticated; life's very existence is
terminated. In the human, it is
our means of communications in
speech, in expression of love,
laughter, joy, anger or sorrow,
and even ill temper or happiness.
it is the primary sex contact;
hence, it is the initial import
to our survival and regeneration by
food and propagation; it deserves
the greatest care it can receive at
any cost or sacrifice."* Unknown Author

The poem has traveled with me and always serves as a reminder of how important and meaningful of an occupation we all have chosen. I believe that dentistry is an essential service, and it has never been more apparent than the present moment. We are looking forward to hopefully having our General Meeting at an outdoor venue at the General Warren Inn on October 7th. The Society can't wait to honor our 25- and 50-year members, and give them the recognition that is so well deserved! I hope this letter finds everyone well, and the poem can hopefully serve you, as well as, it has for me throughout the past 14 years.

Warmly,

Dr. Scott E. Levy

Meet Our New Board Member

Our 2020 Give Kids a Smile Champion

Connie Greeley received her dental degree from Temple University Kornberg School of Dentistry and then earned her certification in Pediatric Dentistry at the University of Maryland. She returned to Temple to complete her certification in Orthodontics.

Dr. Greeley is board-certified by the American Board of Orthodontics. She serves on the Cleft Palate Team at Nemours Hospital for Children and is visiting lecturer for Christiana Care Dental Residency Programs. She has been involved with organized dentistry as past-president of the Delaware State Dental Society, the Middle Atlantic Society of Orthodontists and the Greater Philadelphia Society of Orthodontics. She is a member of the ADA, AGD and the AAO.

Dr. Greeley is honored to be participating as a board member and recording secretary of The Dental Society of Chester County and Delaware County. After enjoying 25+ years of practice in Wilmington and Newark, Delaware, Dr. Greeley is blessed to be in her new practice in Kennett Square, Pennsylvania.

Our very own Dr. Bernie Logan was honored as a Healthcare Hero for 2020

MAIN LINE TODAY

Meet the 2020 Healthcare Heroes Redefining Medicine

Melissa Jacobs April 29, 2020

This year's **Healthcare Heroes** are redefining medicine in our region. Now more than ever, we are honored to recognize their work.

The photo subjects aren't wearing masks in the following photography as the shoot was set prior to COVID-19.

Bernadette Logan, DDS, Paoli and Berwyn

For 26 years, Dr. Bernadette Logan has provided pro bono dental services at Tredyffrin/Easttown Middle School. The program is part of Children's Dental Clinic, created decades ago to serve the kids of local GIs after World War II. Most of Logan's patients are the children of Spanish, Albanian and Asian immigrants.

She also works with the American Dental Association's Give Kids a Smile, providing free care to indigent children in Chester and Delaware counties. "In addition to the actual work, I talk to kids about dental hygiene, prevention and even nutrition," Logan says. "I want them to understand what I'm doing—and not hate going to the dentist."

Member Spotlight

Dr. Charles Weber

Honored for 50 Years of Membership

Dr. Charles (Charlie) Weber graduated from the University of Pennsylvania School of Dental Medicine where he first became involved in organized dentistry. After graduation he served two years in the U.S. Army stationed at Ft. McClellan in Alabama. Upon leaving the Army, Dr. Weber opened his practice in West Chester. He became active in The Dental Society of Chester County and Delaware County, eventually becoming President.

Dr. Weber has served as President of The Second District Dental Society, on two ADA Councils, and as Third District Trustee to the American Dental Association. Throughout his career in organized dentistry he has been honored with several service awards including the Pennsylvania Distinguished Service award. Dr. Weber believes that one of the greatest privileges he has had while working in the various societies is meeting dentists, both locally and across the country, many of whom have become close friends.

Being a gadget and technology enthusiast, Dr. Weber wishes he were just beginning his career. He would be excited to work with all of the new technology that will change dentistry in the next 50 years.

In his spare time Dr. Weber enjoys taking pictures in the surrounding countryside, fishing and spending time with his wife Karen, their children and their two grandchildren, both of whom have inherited his unique sense of humor.

Dr. Allen Yang

Our 2020 Recognition Awardee

Dr. Allen Yang received his DMD from The University of Pennsylvania, School of Dental Medicine. After completing his Certificate of Endodontics at Penn, Allen and his wife, Laura, moved to Northern Virginia to start his career and family. In NOVA, Allen was voted Top Endodontist in the area. Being an avid Philly sports fan, Allen decided to move back home to Philadelphia to join Exton Endodontics in 2008.

As a strong believer in giving back to the community, Allen has been a volunteer for Give Kids a Smile for the past twelve years. In addition, Allen is involved in The Dental Society of Chester County and Delaware County, where he has served on the Board of Governors and as Chairperson of Membership and New Dentist Committee. Allen's favorite dental society events have been hosting the International Dinner, where dentists can come together to connect and collaborate while sharing and experiencing various cuisines and cultures.

Besides SPEF (Sixers, Phillies, Eagles, Flyers), Allen enjoys spending time with his family, traveling, music, movies, and hiking with their new puppy.

Please Help Us...

Give Kids a Smile!

Dental Advocacy Needs Your Help!

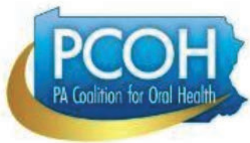

PADPAC (Pennsylvania Dental Association Political Action Committee) **NEEDS YOUR HELP!!**

What is PADPAC? It one of the most important tools we have in our advocacy armamentarium. These funds allow us to contribute to legislators who support us and educate those who don't support us yet. The PDA has a robust political agenda for this legislative session, but we need your help to promote the legislation which will address the issues that matter most to you and your practice. Your contribution can make us even more effective. Please contribute to your PAC. We can't win if you don't help. ***Help PADPAC win for you.***

Please let me know how I can show you how much you matter. Thank you!

Friday, September 11, 2020 • REVISED AS A WEBINAR

Dennis Tarnow, DDS - New York, NY

Interdisciplinary Approach for Treating the Esthetically Compromised Patient – Treatment planning of complex cases requires the highest level of knowledge and skill of the treating team. An envisionment of the final case before starting is required to know where the goal of treatment will be directed. Topics include controversial issues regarding immediate postextraction socket implant placement in relationship to survival and esthetic outcomes. Immediate provisional restoration of immediate implants placed into healed (delayed) or augmented sites. Current concepts will be presented on techniques, clinical research, histologic evidence, and innovations in immediate implant placement and provisional restoration treatment and how they can enhance outcomes for greater patient comfort, care, and satisfaction. The incidence and prevalence of inflammatory peri-implant disease is rapidly rising due to the increase in implants and their duration world-wide. Whether you are placing implants or restoring implants, it's imperative that you understand the factors involved in peri-implant disease, are able to diagnose the problem in its incipency and can take the proper steps to arrest its progression. Course Objectives: Should implants be placed immediately or in a delayed protocol? Should multiple implants be placed in the aesthetic zone? Should the case be splinted into separate bridges or individual teeth? Understand which instruments and chemotherapeutic agents are best suited to debride, detoxify and decontaminate an affected implant. Understand the indications for non-surgical and surgical therapy, and the specific implant surgical techniques utilized to optimize the results of peri-implantitis treatment. *This course is supported by educational grants from Garfield, Hayes, Kettenbach, Salvin and PNC.*

Please note this course is now a Webinar and will be held from 8:30 am to 3:00 pm with breaks throughout. A link will be sent in early September to attendees to join the meeting.

For Speaker Bio go to www.DKUDental.com and see full brochure.

Registration for all courses 8:00 AM. Lecture 8:30 AM – 3:45 PM. Continental breakfast and lunch included for all DKU courses.

FEES

Delco and Chesco Society Members - Individual Courses - \$210

Other ADA Members - Individual Courses - \$225,

Non-ADA Members - Individual Courses - \$240

Staff members accompanied by a doctor will be \$110

Cancellations and Refund Policy - No refunds will be made without at least one week's notice prior to course date. (A \$25 administrative fee will be deducted.)

For information please contact: DKU • c/o Barry Cohen, DMD • 4750 Township Line Rd • Drexel Hill, PA 19026 • 610-449-7002 • DKUDental@aol.com

**PLEASE
