and Delaware County or payment
by cash that evening

**RSVP by May 10th to
DSCCDCrsvp@gmail.com**

From the Desk of the President

Dr. David Iglewicz

Happy Spring Everyone!

I had a great time at our CPR event orchestrated by Dr. Karin Brian. This year it was held at the Helicopter Museum, and it was such a pleasure to see new and old friends. Thank you to Dr. Brian and everyone else that helped organize this outing.

I recently listened to a podcast and thought of all of us. The speaker was talking about back injuries and asked what profession has the worst backs. I think you know the answer, Dentists and then Truck Drivers. As we all know, as Dentists, we work in a position that is not conducive to back health. Then, as hard charging Dentists, we decide to go on long weekends, play hockey, go fishing, or do some outdoor activity on the weekends. We never give time for true rest and recovery.

Spring is a time of new growth. This is a good time to think about what we do to recover from our profession. I personally have suffered from back ailments from time to time. I even ended up with my left leg having complete paresthesia. Maybe it was a blessing as it forced me to do stretching, myofascial rolling, and functional movements. I learned the importance of taking a break and resetting. I slowed down and started meditating, which led to me being more productive.

As we spring forward, let's all take some time to think about our self-care so we can treat our bodies, like we do our patients with the utmost respect and kindness.

Respectfully submitted,

Dr. David Iglewicz

CPR Healthcare Provider Renewal Course Night at the Museum Wed., Jan. 25, 2023

John Schmidt of Safety Outsourcing presented this CPR recertification course. Fifty-five people attended the course and toured the museum; 10 others visited the museum only and/or helped with set-up/clean-up. Brian Madden of Carr Healthcare Real Estate and Deanna Eiss of Hudson Transition Partners sponsored the event.

Pictured L to R: John Schmidt and Dr. Arnold Galer both who are veterans that served in Vietnam.

ADA CEREP | Continuing Education Recognition Program

The Dental Society of Chester County and Delaware County is an ADA CEREP recognized provider approved by the Pennsylvania Dental Association. ADA CEREP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CEREP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The Dental Society of Chester and Delaware County designates this activity for six continuing education credits per course.

Friday, April 21, 2023 **Martin Jablow, DMD - Woodbridge, NJ; Paul Feuerstein, DMD - Billerica, MA; John Flucke, DDS - Lee's Summit, MO**
Technologies To Change Your Practice Now! – *Technology In Your Dental Practice- A Review of Current Products and a Look Into the Future.*

In an overview of the latest high tech products being integrated in today's practices, learn about products in the following areas: cameras-digital and intraoral; digital radiography; caries and oral disease detection; new ConeBeam CT technology, software and implant planning; new 3-D intraoral digital impressions and CAD systems; and the latest tech products. Specific examples, many which are used in our private practice, will demystify many products and help you make intelligent purchase decisions. There will also be discussion of interesting new products that have recently come to the marketplace and some that have not yet arrived. A brief discussion of practice management and internet products. There will be lots of information available no matter where you are on the technology. Learning Objectives: Learn about the newest high tech products; Receive information to help make informed technology purchase decisions for your practice; and See how the products are used clinically in a typical general practice. *This course is made possible with financial support from multiple dental manufacturers that will be identified prior to the course.*

Friday, May 19, 2023

Janice Hurley- Mt. Shasta, CA

AM: The New Patient Experience – Crucial to your practice success is developing a standard operating procedure for your new patient interview. Learn how to design your new patient paperwork to uncover your patient's wants and needs. Hear how to conduct your new patient interview to find out how your patient feels about the value of their dental health and their dental history. When you develop a system that involves the whole team, in this key component of practice management, you're guaranteed to increase treatment acceptance. Goals: To set specific guidelines on optimizing every new patient's experience to the practice; Empowering each team member with an understanding of their role in the optimal new patient experience. Objectives: Review of existing systems; Develop interview skills; and Design your patient paperwork to support your goal of uncovering what is most important to your patient.

PM: Dental Image Branding – There is no denying that things have changed in dentistry and you had to adjust. Learn what it takes to put your best foot forward and make the best first and lasting impression of your practice. Learn what contributes to a successful brand. Avoid mistakes and maximize marketing opportunities. Look at your internet footprint and your presence through your patient's eyes. Goals: To provide team training on the patient's point of view; To provide opportunities to understand how to present excellent clinical services; To bring each practice up to speed on the importance of their patient's first impression through social media; To increase the number of positive testimonials and answer those less than optimal. Objectives: Develop skills in reading body language; Learn effective voice tone and pace when speaking with patients; and Promote the use of positive visual images to encourage new patients to the practice. *Dr. Hurley acknowledges support from Care Credit.*

For Speaker Bio go to www.DKUdental.com and see full brochure.

All meetings will be held at the Springfield Country Club on Route 320, Springfield, Delaware County, PA.

Registration for all courses 8:30 AM. Lecture 9:00 AM – 4:00 PM. Continental breakfast and lunch included for all DKU courses.

FEES

Delco and Chesco Society Members - Entire Series - \$695, Individual Courses - \$210, 3 Courses - \$560, 4 Courses - \$655

Other ADA Members - Entire Series - \$745 Individual Courses - \$225, 3 Courses - \$600, 4 Courses - \$695

Non-ADA Members - Entire Series - \$815, Individual Courses - \$240, 3 Courses - \$635, 4 Courses - \$755

Staff members accompanied by a doctor will be \$110 per course per person with reservation at least one week in advance, \$130 per course per person at door.

Cancellations and Refund Policy - No refunds will be made without at least one week's notice prior to course date. (A \$25 administrative fee will be deducted.)

Congratulations!

The Dental Society of Chester County and Delaware County has received a **PLATINUM** recognition level of the PDA Presidential Citation Award. This award recognizes district and local dental societies who accomplish certain tasks related to PDA's Strategic Plan. Platinum is the highest recognition level.

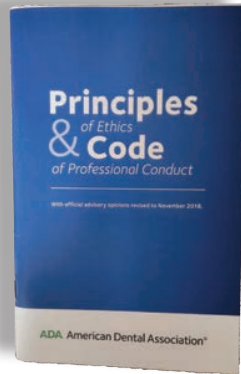

We are thrilled to recognize the hard work of our leaders and members, particularly during this challenging year. Thank you for your time and dedication to provide members with excellent benefits and resources.

ADA PRINCIPLES of ETHICS & CODE of PROFESSIONAL CONDUCT

by Linda K. Himmelberger, DMD
*Past Chair of the ADA Council on Ethics,
Bylaws & Judicial Affairs*

In 2016, the ADA celebrated the 150th Anniversary of the ADA Principles of Ethics & Code of Professional Conduct (“The ADA Code”), 150 years of *Putting Patients First*. It is a point of pride that the ADA was the first professional organization to adopt a code of ethics, well before our colleagues in medicine and nursing. As members of the ADA, we voluntarily agree to abide by the principles of The ADA Code. But what exactly is The ADA Code and how does it inform our practices?

Advisory Opinions. The Principles of Ethics describes the aspirational goals of the profession and consists of five (5) fundamental principles: **Patient Autonomy** (Respect); **Nonmaleficence** (Do no harm); **Beneficence** (Do good); **Justice** (Fairness); and **Veracity** (Truthfulness).

As described in the Preamble, “*the ethical dentist strives to do that which is right and good. The ADA Code is an instrument to help the dentist is this quest.*” In future articles, each of the Principles will be described in greater detail so that you have a better understanding of the

ethical framework for decision-making in our daily interactions with patients.

The ADA Code consists of three sections, the Principles of Ethics, the Code of Professional Conduct, and the

VOLUNTEER DENTISTS NEEDED

Community Volunteers in Medicine (CVIM), a free nonprofit health care center for uninsured, low-income working people in Philadelphia's Western Suburbs, is looking for Volunteer Dentists.

WHO ARE WE LOOKING FOR?

We need current or retired dentists who can volunteer in our West Chester location. Most dentists work a four-hour shift, either weekly or biweekly.

WHY VOLUNTEER AT CVIM?

“PROVIDING DENTAL CARE TO PATIENTS WHO CAN'T AFFORD IT, NOT ONLY STRENGTHENS AND HEALS MY PATIENTS, BUT IT ALSO STRENGTHENS AND HEALS ME”

–Dr. Jyoti Dangi, CVIM Volunteer Dentist

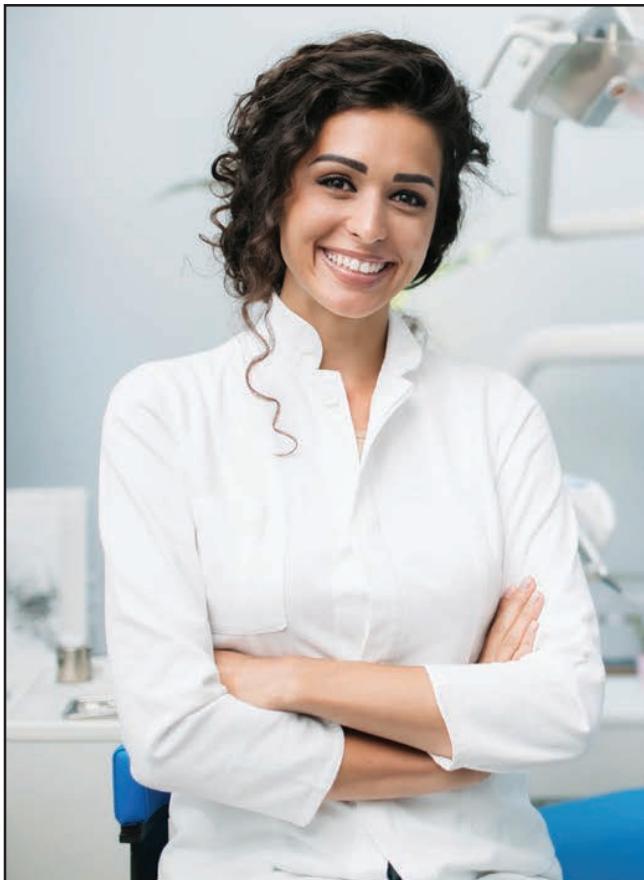

“AN AMAZING ATMOSPHERE TO BE ABLE TO PROVIDE DENTAL CARE TO THE UNDERPRIVILEGED IN MY COMMUNITY”

–Sylvia Britt, CVIM Volunteer RDH

- ✓ ACTIVE PA REGISTERED DENTAL LICENSE
- ✓ COVID VACCINATION REQUIRED
- ✓ RECENT DENTAL EXPERIENCE PREFERRED

FRIDAY, MARCH 31, 2023 at Valley Forge Casino Resort

MEDICAL EMERGENCY PREPAREDNESS!

An Interactive Dental Seminar featuring Larry J. Sangrik, DDS
(Includes a hands-on portion)

Medical emergencies occurring in the dental office can be stressful and frightening for both the patient and entire dental team. Participants will develop strategies to prevent, identify, and respond to a wide range of medical crises. Emphasis will be placed on preparing the dental team to minimize the impact of such an event.

Although any dental professional will benefit from attending individually, the greatest gain is achieved when the entire dental team attends together. By doing so, dental teams develop a coordinated response.

Successfully *managing* a medical emergency is significantly different from *knowing about* medical emergencies. Participating individually and in groups, the **workshop component** of the meeting includes a series of exercises drawing from the material presented in the lecture component.

Risk factors predict that medical emergencies are increasing in frequency, intensity, and diversity.

LEARNING OBJECTIVES

Discover...

a quality medical history that is both current and easily accessible

Understand...

how to maintain a patent airway and provide oxygen for both breathing and non-breathing patients

Develop...

a response manual for chairside reference during a medical emergency

Realize...

the importance of pre-assigned medical emergency response duties for each team member

Recognize...

the use of various medications in the emergency drug kit

Establish...

protocols for the 12 most common medical emergencies

An extensive handout is provided which can be condensed into a comprehensive chair-side manual with appropriate protocols for responding to most emergencies.

Larry J. Sangrik, DDS

Since 1999, Dr. Larry J. Sangrik has offered dental CE courses to thousands of dental professionals at the nation's top meetings in venues ranging from small groups of 12 to large groups of 1,000. Having been named as one of the nation's leader's in dental continuing education for over ten consecutive years, Dr. Sangrik has written for *Dentistry Today*, *Dental Economics* and *Dental Practice Success* on the topics of medical emergencies and dental fear.

Registration **Now Open**
www.gpvfdc.org

*Event is free to verified members of Bucks, Chester, Delaware, Lehigh, Montgomery and Northampton County Dental Societies.

Where YOU Make a Difference

Community Volunteers in Medicine, CVIM, provides quality dental care in a modern facility located on Lawrence Drive in West Goshen Township, Chester County. CVIM's 7-operator dental suite, two dental satellite locations, and extensive dental outreach programs provide comprehensive, general, and specialty dentistry, screenings, and treatments to more than 4,600 uninsured adults and children annually. All treatment is free to our patients and screened by our eligibility team to ensure they are truly in need so that we are helping those people who really deserve it.

Dozens of dentists volunteer their time and service to treat the uninsured, earning under 300 percent of the national poverty level, and living or working in and around Chester County. The goal of the dental team is to be able to provide complete dental care to each patient, and we have volunteers in most specialties, and dozens of general practitioners. Even though it sounds like a complete program, ***we are in need of additional general practice volunteers and dentists in all specialties.*** You can provide care as often as once a week, or less frequently, half, or full days. We have many dentists that volunteer once per month, or even every 6 weeks. If you can provide a weekly commitment, you may be eligible to be on our dental staff. Staff dentists are provided a stipend.

Dr. Ron Heier, a longtime volunteer, states, "I first became involved at CVIM as a volunteer dentist for **Give Kids a Smile** and **Give Vets a Smile** events co-

hosted by CVIM and the Dental Society of Chester County and Delaware County. I saw firsthand how improving the oral health of children and veterans who couldn't afford care makes a difference in our community. When I sold my dental practice, I made the commitment to further help my local community by volunteering a day a week at CVIM. All patients are treated with respect and dignity, and they receive a high level of dental care. Everyone ends their visit with a "thank you" or "gracias" which reinforces how grateful they are for the care they receive. The staff at CVIM is also a joy to work with and exhibit great professionalism. Volunteering at CVIM is a benefit to the oral health of the patients and I get joy out of providing the care. It's truly a win/win when you volunteer at CVIM."

The CVIM dental team also participates in numerous outreach events throughout the year both within and beyond the clinic. Most notable are **Give Kids a Smile** in December and **Give Vets a Smile** Day in November; these events are partnered by the Dental Society of Chester County and Delaware County. In February, CVIM hosts Sealant Saturday and Community Smiles. There are many opportunities to be involved and give back to the community, and the dental department at CVIM will make volunteering as easy as possible for you. Please call for a tour and have a conversation with our Director of Dental Services, Gina Farrell, RDH, BS, PHDHP.
